DETAILED ACTION

1. Applicant's election without traverse of claims 1-21 and 25 in Paper No. 9 is acknowledged. Claims 22-24 and 26 are canceled per user request.

Claim Rejections - 35 USC § 103

2. Claims 1-21 and 25 are rejected under 35 U.S.C. 103(a) as being unpatentable over the Mastering Microsoft Office 97 (Office 97).

- As for claims 1, 3, 6, 11, 13, 14, 15, 16: In a computer system having an operating system, Microsoft Office 97 discloses a computer graphical user interface, comprising:

a primary screen (figure 5.11),

a predetermined file-container icon "My Document" (page 759),

one or more file-operation dialog boxes (figure 10.3) which are accessible by application programs of the computer and which specifies a file container associated with the predetermined file container icon as a default document container for file related to the application program (pages 238-240; 358-359).

Office 97 fails to clearly teach the displaying of the pre-determined file container "My Document" icon on the primary screen. However it would have been obvious to one of ordinary skill in the art, at the time the invention was made, to implement the displaying of the "My Document" icon on the primary screen. Motivation of the implementation is for providing easy access to the "My Document" icon.

Art Unit: 2773

- As for claim 2: The graphical user interface further includes a destination menu item (figure 10.3) associated with a file to permit the file to be moved or copied to the file container associated with the file container icon.

- As for claims 4, 17: Figures 10.3 and 10.8 are dialogs for file Save and Open operations.

- As for claims 5, 10: Office 97 is implemented in Microsoft operating system.

- As for claims 7-8: the computer system further comprises a master file My Computer (pages 24-25) containing global information pertinent to the computer system, a shell registry (implicitly included) which stores the master file.

- As for claim 9: "My Computer" allows network access. Network administrative configuration would have been obvious to one of skill in the art (page 24-26).

- As for claims 12, 25: Claims 12, and 25 recite the steps/means for performing the functions correspond to components of claim 1, thus are rejected for the same reason as set forth in the rejection of claim 1.

- As for claims 18, 21: The file Open and Save dialog include links to the Desktop (figure 6.2).

- As for claim 19: Office 97 includes a most-recently used file menu defined to display links to most-recently used files or folders (figure 6.2).

- As for claim 20: The most recently used file menu includes a partially opened Documents icon (fig. 6.2)
